half the world s population 3 billion people are below the poverty line and 70 per cent of the worldÆs poor live in rural areas target 3 billion encapsulates dr a p j abdul kalamÆs mission to eradicate poverty from the world with 750 million people living in villages india has the largest rural population in the world based on his indian experience dr kalam recommends a sustainable and inclusive development system called pura providing urban

amenities in rural areas to uplift the rural poor not by subsidies but through entrepreneurship with community participation to make his case dr kalam cites the examples of individuals and institutions in india and from across the world who with an entrepreneurial spirit and a burning desire to make a difference have successfully generated and tapped into the potential of the rural masses fabio luiz de oliveira rosa changed the face of the rural district of palmares brazil by acquiring for the farmers access to electricity and water which effect combined with better agricultural methods led to an increase in prosperity and stemmed the migration to cities the 123 strong magar clan owned magarpatta a 430 acre plot on the outskirts of pune maharashtra in the 1990s they organized and set up the magarpatta city which is now home to over 35 000 residents and a working population of 65 000 and boasts of an it park targets 3 billion tells the story of the brilliantly envisaged global sustainable development system that is pura outlining dr kalam s vision for every individual and organization a vision that can create 3 billion empowered productive and healthy citizens and generate 3 billion smiles book jacket

the nexus between best practices and student achievement is demonstrated from the grasp project discovering how some california charter schools with higher academic achievement showed evidence of a greater number of best practices as measured by performance governance education program human resources business practices and facilities the education program infrastructure surprisingly technology did not show a correlation for reasons explained in the nexus moreover the nexus is bolstered by administrative innovation and competition theory serving as foundations for the nexus the nexus also introduces strategies to implement best practices and process improvements through lean six sigma methods and strategic and action planning the search for the next practice designed to improve education programs is perpetual the significance to accreditation is profound as student achievement measures will require metrics paced to reform movements such as common core standards derived from international settings by the same token quality education will become clearer as edification through international benchmarks such as iso 9000 will promote higher standards of excellence the nexus conclusions have relevance to all school systems since implementing best practices can elevate student achievement the reason is clear the more a school system operates efficiently through best practices and process improvements the more time is available to the school

leadership to devote attention to academic achievement as the ultimate product of education and for those invested in school improvement a higher value added education with a higher return on investment

in this interdisciplinary book giulio allevato explores how the non fiscal function of the taxing power has contributed to the establishment consolidation and maintenance of an effective power to govern in modern nation states innovative in its historical approach this book illustrates how the link between non budgetary tax policies and state sovereignty continues to play out in the current global landscape

development economics theory empirical research and policy analysis by julie schaffner teaches students to think about development in a way that is disciplined by economic theory informed by cutting edge empirical research and connected in a practical way to contemporary development efforts it lays out a framework for the study of developing economies that is built on microeconomic foundations and that highlights the importance in development studies of transaction and transportation costs risk information problems institutional rules and norms and insights from behavioral economics it then presents a systematic approach to policy analysis and applies the approach to policies from around the world in the areas of targeted transfers workfare agricultural markets infrastructure education agricultural technology microfinance and health

this book is well known for its coverage of modern topics game theory economics of information and behavioral economics clarity of its writing style and graphs and integrated use of real world examples the emphasis on relevance and application to both managerial and public policy decision making are focused goals of the book this emphasis is accomplished by including many extended examples that cover such topics as the analysis of demand cost and market efficiency the design of pricing strategies investment and production decisions and public policy analysis economists and strategists looking to stay current with economic information

alert before you purchase check with your instructor or review your course syllabus to ensure that you select the correct isbn several versions of pearson s mylab mastering products exist for each title including customized versions
