measures for community and neighborhood research is the first book of its kind to compile measures focused on communities and neighborhoods in one accessible resource organized into two main sections the first provides the rationale structure and purpose and analysis of methodological issues along with a conceptual and theoretical framework the second section contains 10 chapters that synthesize analyze and describe measures for community and neighborhood research with tables that summarize highlighted measures the book will get readers thinking about which aspects of the neighborhood

may be most important to measure in different research designs and also help researchers practitioners funders and others more closely examine the impact of their work in communities and neighborhoods

rather than engaging students in more fluid and malleable content experiences science technology engineering and mathematics stem content is presented as a stoic realm in which learners are mere visitors as opposed to full participants the connection between culture and content falls short of allowing for the plethora of cultures backgrounds and experiences diverse students bring to the classroom furthermore even fewer can effectively demonstrate this connection in stem related subject areas culturally responsive sustaining pedagogy csp can allow stem educational spaces to be opened to diverse learners at all educational levels fostering a more socially just and pluralistic society stem education and culturally sustaining pedagogies research practices and critical reflections explores these theories by illuminating empirical research regarding the intersectionality of stem and csp and offering practical examples and critical reflections to the field it revolutionizes the stem educative experiences of diverse learners and welcomes them to these fields of study and career pathways covering topics such as cross state collaboration student driven learning and family teacher relationships this book is an excellent resource for teachers educators sociologists academicians researchers scientists and more

nutrition education second edition provides a simple straightforward model for designing effective nutrition education that addresses the personal and environmental influences that affect food choice and assists individuals in adopting healthy behaviors using a six step process this text integrates theory research and practice and provides advice on designing implementing and evaluating theory based nutrition education

the book presents various aspects of the current urban development in the context of the recent rapid growth of the ict sector it focuses on the local scale in line with the notion that the neighborhood is the fundamental component of any urban area beginning with a critical overview of the urban governance paradigms through a careful analysis of the multifaceted relationships between the internet and the urban functions followed by a description of selected approaches to local urban spatial policy it concludes with a concept of multi channel neighborhood governance mcng the key observation is that the accelerating virtualization of urban life has profound consequences for the spatial social and economic structures of cities at the local level it is changing the functional profile of neighborhoods replacing some traditional on site local services with online ones reducing or even eliminating the need for face to face social interaction rejoining work and home roles and modifying the spatial behaviors of residents all of this calls for a prompt response from the neighborhood governance which should include the nonspatial online components of contemporary urban lifestyles the book searches for an alternative to conventional planning capable of addressing the virtualization of different urban functions at the neighborhood level and providing satisfactory solutions for shaping an optimal balance between online and offline environments the study defines a comprehensive method for the management of essential services in urban neighborhoods with special attention to the integration of online and offline channels the mcng concept

includes a list of recommendations for urban policy practitioners on how to deal with digital conversion how to manage land use how to stimulate entrepreneurship and how to improve quality of life

since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district however such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise america this analysis of urban neighborhoods in the united states from 1960 to 1995 presents fifteen essays by scholars of urban planning and development together they show how urban neighborhoods can and must be preserved as economic cultural and political centers

the concerns of residential neighborhoods are frequently lost in vague comprehensive plans this report shows how neighborhood based planning can help you overcome the limitations of a comprehensive plan it looks at five programs that have involved residents in shaping and implementing neighborhood plans all five planning programs focus on local issues within the larger citywide context
